

# Quality Policy

# Quality and improvements

Hydrogen Mem-Tech shall deliver products on time and of the internally agreed quality, and the quality agreed with customers, by working systematically in compliance with the Hydrogen Mem-Tech management system.

Hydrogen Mem-Tech shall continuously develop its procedures and work processes, as well as controlling and strengthening the competence of all employees.

The improvement system shall be used to actively achieve continuous improvement.

Hydrogen Mem-Tech shall work systematically and consistently with comprehensive risk management in all parts of the company.

Quality management is a line responsibility. Hydrogen Mem-Tech will clearly communicate this policy to all employees.

Thomas Reinertsen, CEO
